

If humanity could speak as one united voice and could come together for an evening of celebration, togetherness and reverence for all and if this could be captured on a stage...  
If the right musicians, dancers, individuals could merge to make this vision a reality, than for one exciting evening perhaps a seed of understanding could blossom.

It is our hope that every individual in the audience is touched by that energy. It is our hope that they are moved, inspired and made aware of how deeply divine, unique and beautiful they are. This "humanity" is "US" we are that show in every aspect of our daily lives. Join us as we celebrate "US"... as we travel through the exotic rhythms and vibrant cultures from around the globe! Feel the passionate fiery voice of flamenco, the exotic sensuality of belly dance the explosion of color and energy of Brazil, the spicy uninhibitedness of salsa the earthy tribal sounds of the African culture. Rhythms deeply felt and fused with soulful R&B.

This is the music felt deeply within and it is my sincerest offering. Whether served on a large highly charged energetic stage, or a small intimate and deeply personal level, it is our gift to you...

" There are aspects of tenderness, touch, reflection and thought, that can only be defined by the beautiful way this artist presents her material. There's so much more here than music. There's substance and if there were no sweet melodies no catchy hooks no sexy vocals there would still be more than enough reason to listen."
